Product Description

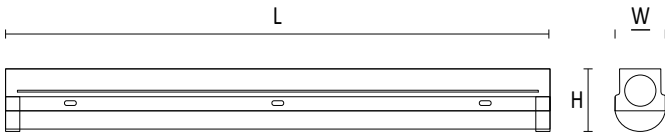

These two linear LED strips can cover many different applications. It can be installed indoors in locations such as staircases, corridors or general common areas. The housing is made of steel with white powder coating, while the diffuser is made of strong polycarbonate with special frosting to provide even distribution. Installation can be done thru the end caps at both ends as well as one of the knock-out from the back.

Luminaire

Model	Length	Width	Height	Wattage	Lumen @3500K
STR2-48-32-XXK	48"	2.3"	2.75"	32W	4000lm
STR2-48-45-XXK	48"	2.3"	2.75"	45W	5600lm

Ingress Protection	IP20
Material	Steel housing and polycarbonate diffuser
Finish	Matte white powder coated

Line Drawing

LEDs

Type	LED
CCT	Single CCT or 3CCT (3000K, 4000K & 5000K)
Ra	>80

Driver

Input Voltage	120~277VAC
Output Current	Constant current
Power Factor	> 0.9
Dimming	0-10V dimming

Sensor

Microwave Sensor (Optional)

Certification

cETLus

Emergency Battery

Optional

Warranty

5 year warranty
